KENWOOD

Outperforming Expectations

Just getting connected is not enough. We make linking you with a wider world of entertainment on the road easier, safer and more enjoyable. Compatible with both Android Auto and Apple CarPlay, integrates your smartphone with in-car entertainment system for seamlessly access to popular apps. With the high-contrast clarity of our High Definition Display featuring a new capacitive touch panel, you are not only connected to the power of your smartphone, but also in safer and effortless control. With High-Resolution Audio, your tunes are richer and more immersive. And all this performance can be installed in more cars than ever before thanks to innovative "Short Chassis" engineering. Bringing you in-car entertainment systems that go beyond connectivity, KENWOOD is outperforming your expectations.
MULTIMEDIA

MORE WAYS TO CONNECT

APPLE CARPLAY™

Apple CarPlay is a safer way to use your iPhone in the car. Simply talk to Siri or touch the receiver's display to get directions from Apple Maps, make phone calls, listen to voicemail, send and receive texts, and listen to music, all in a way that allows you to stay focused on the road. With the latest iOS version (iOS 12.0 and higher), 3rd party navigation apps like Google Maps™ and Waze™ are also supported. New KENWOOD Wi-Fi receivers now support Apple CarPlay wirelessly (compatible phone required) .   *Selected models only

GARMIN 3D TERRAIN VIEW

3D TERRAIN VIEW

With the Garmin 3D Terrain View, life-like map contours will be displayed at low zoom levels, giving you a realistic perspective of the terrain in available areas. Previously, users were limited to simply displaying the elevation and grade levels as text on a flat map. Now, true perspectives can be achieved in a 3D format! The mapping view will reflect the curves in real time.

* DNX9190DABS only

HIGH-RESOLUTION AUDIO

Hi·Res AUDIO

High-Resolution Audio is high-quality sound that exceeds CD standard. High-resolution audio captures and beautifully expresses all the details of your favorite music. Through ultra-high and low frequencies, immerse yourself in a rich and high-quality sonic experience.

* The product with this logo is conformed to High-Resolution Audio standard defined by JapanAudio Society. This logo is used under license from Japan Audio Society.

GUIDANCE BY GARMIN

GARMIN

Equipped with the industry leading Garmin navigation software, offering a variety of display options to make your driving easy such as Photo Real Junction View and Lane Assist.

INRIX TRAFFIC

INRIX | 2 YEAR

Includes 2 years free access to INRIX data services, offering real time traffic information as well as parking, fuel services, weather and much more.

3 CAMERA INPUTS

THREE CAMERA INPUTS

To enable a smarter driving experience, receivers featuring 3 camera inputs allow for the utmost in convenience, flexibility, and safety. With 3 camera inputs, you can connect a front camera, a KENWOOD dashboard camera (DRV-N520 sold separately), and a rear camera . Alternatively, 3 camera inputs support several other configurations, including the connection of 2 blind spot cameras and a reverse camera. Camera switching is available using on screen controls and manual switchers.

2-WAY NAVIGATION LINK

DASH CAM READY

By linking your head unit with DRV-N520 dashboard camera, KENWOOD provides you a wealth of additional features.
2-Way

Touch Control

Recorded videos can be displayed on the large screen, and operated from the touch panel.

Recording & Photo Shooting   **Playback Control**

Combination Display (P in P)   **Dashcam Setup**

GPS Function

By linking with the head unit, more accurate location information is sent from the head unit and stored on the dashboard camera.

GPS Satellite

Location Information

Safety Alert

DRV-N520 is equipped with the safety alert function. Dangerous situations such as lane departure or forward collision are detected and a beep sound and caution pop-up is displayed on the head unit.

**Lane Departure**   **Forward Collision**   **Departure Delay**

DASHBOARD CAMERA

3 Megapixel Recording

3 Megapixel Recording provides higher resolution than Full HD (1920 x 1080). 3 Megapixel High Definition recording captures clear video even while driving.

*When HDR function is on, video is recorded at 2MP.

3 Mega recording | **3 million pixels**
1296 pixels
2304 pixels

Full HD | **2 million pixels**
1080 pixels
1920 pixels

Built-in G-Sensor

When the G-Sensor detects any sudden motion, DRV-N520, DRV-830 and DRV-410 will automatically save and lock the recording to protect it from being deleted. The integrated 3-axis sensor records G-force which shows the direction and the strength of possible impact.

HDR for Backlighting

Thanks to HDR (High Dynamic Range) technology, DRV-N520, DRV-830 and DRV-410 can record video at dark and bright locations, without underexposing or overexposing the image.

Safety

Safety and warning features can be activated to avoid frontal collisions, e.g. when an unintentional lane departure happens you will get an alert warning.

GLOSSARY

Capacitive Touch Panel
Clear glass display with swipe functionality provides superior picture and touch panel control.

Clear Resistive Touch Panel
A clear screen designed to reduce glare that includes a resistive touch sensor for accurate control during operation.

Viewing Angle
High quality picture when viewing the screen from different angles.

Music Mix
Up to 5 Bluetooth® devices can be paired to the head unit at the same time, you can enjoy audio streaming just by switching the devices with your friends or family.

Dual Phone Connection
While you are connected through Bluetooth, with a touch of a button you can switch between two phones.

Remote App
A smartphone application can control most basic functions of the receiver over the Bluetooth connection of the paired phone (iPhone or Android).

Wireless Music Browsing (AVRCP 1.5)
Search and select songs from your music collection through a Bluetooth connection.

Wireless Mirroring for Android
Solution for seamlessly displaying and controlling your smartphone apps on a screen without cables on select Android devices.

Customizable Multi Widget
Customize your Home Screen by selecting four shortcut/information widgets. Widget options can include album art, clock, compass, photo frame, visualizer, weather, turn-by-turn, Garmin navigation, and more.

Photo Real Junction View
Garmin Photo Real Junction View shows what complex interchanges look like before you arrive.

Lane Assist
Lane Assist guides you to the correct lane for an approaching turn or exit, making unfamiliar intersections and exits easy to navigate.

Parking Guide Lines
Parking guide lines (requires installation of compatible backup camera) that enhance the effectiveness of a backup camera.

3 Years Free Map Update
KENWOOD offers 3 years free map updates enabling you to keep up to date. Download the latest maps online to an SD card and insert to your navigation system.

13 Band EQ
13-Bands of equalization offer detailed audio tuning to match your taste and listening environment.

Digital Time Alignment
Sound coming from a variety of speakers located within your car are time aligned to arrive at your ear at exactly the same time.

Android Rapid Charge
Rapidly charge your compatible Android smartphone with the USB port, up to a maximum of 1.5A.

Dual USB
Multiple USB ports provide additional inputs for music sources or smartphone battery charging.

3 Camera Inputs
Optional camera connection method for up to 3 cameras in various configurations.

CD Door / Cover
The CD slot cover prevents dust from entering the transport.

Short Chassis
With Multimedia and Audio receivers reduced depth of the chassis, installation is made easier in a wider range of cars than ever before.
